Language Resource Switchboard

- for given resource, **LRS** suggests web-based tools
- users can invoke applicable tool by simple click
- relevant information forwarded to tool in question
- switchboard has achieved its task, it does no more
- standalone and integrated with VLO
- integration with FCS and VCR in progress

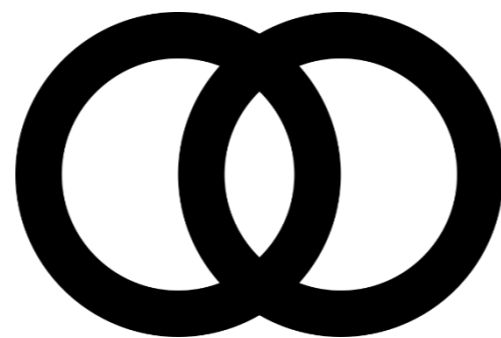

Collaborative Data Infrastructure

Goals

- Having CLARIN make use of the EUDAT infrastructure
 - increase data privacy in switchboard by using r/MPCDF/B2DROP
- Have EUDAT users profit from the CLARIN infrastructure
 - from B2DROP to CLARIN to increase visibility of CLARIN tool space

- file uploaded on [file upload server](#) at MPCDF, because processing tools need access to resources
- but limited disk space
- more serious: **little access control**

B2DROP as alternative to MPCDF

Steps:

- installed local instance of B2DROP
- registered designated user account, 'switchboard'
- any upload transferred to this B2DROP account
- 'switchboard' creates *shared link*, expires after 24h
- *shared link* passed to processing tool

Better, allow users with existing B2DROP account to use their account for management of file uploads

but tools that process data still store it somewhere

Für Köllner jedenfalls ist ein Verkauf lukrativ , weil in Europa der Import von Wildtieren verboten ist und **Elefanten** derzeit gut 60000 Euro wert sind .

Und allein darf Köllner Kenia laut Gesetz nicht halten : **Elefanten** sind hochsoziale Tiere .

In einer Nacht- und Nebelaktion verließ Karl- Heinz Köllner , Direktor des Zirkus „ Harlekin “ , sein Winterquartier in Göritz bei Dessau – den **Elefant** im Gepäck .

Für Thomas Höller vom Tierschutzverein „ Animal Public ein klarer Beweis für Köllners Unverantwortlichkeit : „ Er darf nicht länger **Elefanten** halten “ , fordert er .

„ Wir würden aber sofort geeignete Partner suchen , denn mit unseren asiatischen **Elefanten** können wir die afrikanische Kenia nicht zusammenlegen “ , sagt Török .

Derzeit befindet sich der **Elefant** „ unter amtstierärztlicher Kontrolle “ , wie es bei der Dessauer Polizei heißt .

Eigentlich gehörten **Elefanten** in Zirkussen verboten , fordert der Vorsitzende Alexander Haufellner .

From B2DROP to LRS

- Technically, LRS plugin inspired from existing B2SHARE plugin for B2DROP
- plugins require installation by <https://b2drop.eudat.eu> admins; but will B2DROP admins support switchboard plugin?
- intermediate steps:
 - CLARIN sets up its own Nextcloud-based cloud with the LRS plugin (and other plugins)
 - CLARIN asks EUDAT to set-up a community-specific B2DROP instance (just for CLARIN users, with the plugin)

Discussion

- making use of B2DROP is a good thing
- switchboard makes it easy to connect resources with tools
- often, resources behind walled garden, access restrictions apply
 - limited access causes LRS problems; LRS standalone can help
- user delegation must be addressed, *e.g.*,
 - user logs into switchboard via Shibboleth
 - user can access all tools
 - tools can access all data
 - tools can write all processing results to user's cloud space

The End
