# B centre checklist

## B centre checklist updated to version 6 - Minor updates

- Ok to submit v5 if you already have prepared assessment based on v5
- Will update the checklist early 2018, so please note that a new version will be ready in Feb.
- Basic technical requirements will **not** change!
- We will ask for a more *structured* description of what the centre provides.
- For re-assessment we also ask for a note on the changes since the latest assessment.
- Documentation needs to be in English

# No A-service assessments

They are on hold while CLARIN rethink the idea of A-services.

# Work focus:

- Now the CLARIN office monitor the expiry dates: warning centres 6 month before!
- We plan to extend the committee to six members again
- B centre checklist update in Feb
- We want to relate the items in the checklist to the FAIR principles
- Please check news from DSA, as DSA and World Data System(WDS) Sep 11th announced a new certification organization: **CoreTrustSeal**
- Dieter has promised to follow the development about DSA.
