

Work Package 3: Central Office

CLARIN-PLUS kick-off meeting

Utrecht, September 9th, 2015

Sebastian Drude, CLARIN ERIC Office

- Improve the CLARIN intranet
 - Organize the internal knowledge and information, document archive etc.
- Raise the usability of CLARIN
 - In particular, improving the website and portal

The CLARIN ERIC website currently has multiple functions and audiences

1. as the main online web presence for CLARIN ERIC,
2. as a gateway to national CLARIN websites,
3. as host for central online services,
4. as a portal for distributed services, and also
5. as the main communications hub for those active in building and operating the CLARIN infrastructure.

3.1	Enhanced Intranet	CLARIN > Bas	3.6
3.2	Intranet: content enhancement	CLARIN > Sebastian	1.2
3.3	Usability Applications + Website		
3.3.1	Unified User Experience	CUNI	4
3.3.2	LR Portal Integration	CLARIN > Bas	2
3.3.3	Usability Testing	CLARIN > CELR	3
3.4	Web presence	CLARIN > Sebastian	1.2

Separate and enhance the internal communications functions of the website by developing an enhanced **intranet**:

A new secure area of the website.

Substitutes the current CE archive and other preliminary solutions.

Responsible: Bas van der Veen

The intranet will be organized to serve:

1. the internal communications of ongoing work
2. as an archive and record of past activities

Responsible: Sebastian Drude

To increase the usability and create a better user experience while accessing the infrastructure.

This task is subdivided into three subtasks:

- Subtask T 3.3.1 – Unified User Experience: Human Interface Guideline and Library [CUNI]
- Subtask T 3.3.2 – Language Resource Portal Integration [CLARIN]
- Subtask T 3.3.3 – Usability Testing and Guided Tour [CLARIN] [→EE. Centre]

Improving navigation, content and integration of national content

A one-day workshop with participation of those responsible for the websites of all national CLARIN initiatives will be held to investigate, and develop procedures for the coordination of future ongoing content updates and development of functionality. The result will be an Online Communications Plan.

ID	Deliverable name	Delivery date
D 3.1	CLARIN Human Interface Guidelines	8
D 3.2	Usability Report	13
D 3.3	Online Communications Plan	19
