

# Outreach Initiatives

Darja Fišer  
#K-centre Workshop  
1 December 2020

CC-BY 4.0

- periodic highlights of national consortia & K-centres
- helps to increase the visibility of national consortia & K-centres
- reveals the richness of the CLARIN landscape & display the full range of activities throughout the network
- 2 articles
  - presentation of a K-centre
  - interview with a prominent researcher who has successfully used K-centre's infrastructure in their research
- publications
  - online: <https://www.clarin.eu/Tour-de-CLARIN>
  - printed:
    - [Volume 1](#)
    - [Volume 2](#)
    - [Volume 3](#)

# Featured K-centres

- 2019
  - CLARIN Knowledge Centre for Treebanking
  - CLARIN Knowledge Centre for the Languages of Sweden
  - The TalkBank Knowledge Centre
  - The Czech CLARIN Knowledge Centre for Corpus Linguistics
  - Impact CKC K-Centre
  - The Knowledge Centre for Polish Language Technology
- 2020
  - The Phonogrammarchiv Knowledge Centre
  - The Knowledge Centre for Atypical Communication Expertise
  - The LUND University Humanities Lab Knowledge Centre
  - The Spanish CLARIN Knowledge Centre
- 2021
  - Welcome: [programme](#)

# New initiatives

- CLARIN Showcases

- a portfolio of showcases of exciting and impactful research projects which have successfully used the CLARIN infrastructure
- targeted at fellow researchers who are not yet familiar with CLARIN and what CLARIN offers
- in collaboration with a science communication expert Hans Van de Water (<https://thefloorisyours.be/en/>)

- CLARIN Café

- <https://www.clarin.eu/content/clarin-cafe>
- an informal and interactive space where researchers, lecturers and students can meet
- if you have a topic you'd like to see discussed in one of the upcoming CLARIN Cafés, let us know at [clarin@clarin.eu](mailto:clarin@clarin.eu)

**Mikel Iruskieta**

CLARIN IMPACT CKC K-Centre

**Making resources accessible, analysing objects in them, linking data, enriching text with metadata, and analysing language in them will enable a new way to interact with our past, understand the present and plan for the future.**

**Dominika Hadro**

PolLinguaTec K-Centre

**The PolLinguaTec tools are great because they allow us to detect many latent textual features which would go unnoticed in manual annotation, so their tools have proven to be crucial for increasing the validity of our research from a qualitative perspective.**

**Beate Eder Jordan**

Phonogrammarchiv K-Centre

The collaboration of the Phonogrammarchiv K-Centre with researchers like us on how to handle materials on the cultural heritage of minority communities is an excellent example of putting the idea of CLARIN's research infrastructure into practice.

**Anita Lorenc**

K-ACE K-Centre

Corpora of speech disorders are difficult and expensive to collect, and can be tricky to distribute because of privacy issues. This is why I value the DELAD initiative to establish a digital archive of disordered speech in a GDPR-compliant way as part of the CLARIN infrastructure.

**Katarzyna Klessa**

K-ACE K-Centre

I see the collaboration with CLARIN K-Centres as a very successful and instructive experience. I am happy that my data got a chance for a “second life”. I also learned a lot about procedures and data flow, which I will benefit from in other work on creation and maintenance of databases and repositories.

**Jose Pérez-Navarro**

Spanish K-Centre

**The Spanish K-Centre is supporting us with their expertise on corpus annotation and language tools like the aforementioned ANALHITZA. We are thus able to more efficiently analyse how Spanish and Basque develop, and get a precise snapshot of how they are used in everyday settings by bilingual children.**

# Tour de CLARIN
