# Key to the letter codes in the programme:

- CLARIN in relation to other infrastructures
- Language resources and tools
- Knowledge infrastructure and dissemination
- Multimedia & multimodality
- Web services and applications for SSH users
- Access, cataloguing and browsing
- Interoperability and technical issues
- Design and construction of the CLARIN infrastructure
- Restricted access and IPR issues

#### RECEPTION

#### Villa Comel / Domus Comeliana

Address:

Via Cardinale Maffi 48 Pisa

http://www.domuscomeliana.com/

Phone: +39 02 0062051

Domus Comeliana's site, located between Piazza del Duomo and the 1155 medieval city walls was already identified in the first City plan (late 1500), and was occupied by gardens until 1870. An engraving dated 1872 shows a street perpendicular to the walls, and a long building classified as a 'house' surrounded by a 'vegetable garden with water reserves.'

An open gallery, a barn, and a shed were later added and in 1947 the complex became the home and office of the University of Pisa Dermatology Clinic director Marcello Comel. From 1992, the scientific foundation carried out extensive refurbishment of the facilities and made the original villa with its terrace and gallery and the two gardens available to the city for events.

#### **Stazione Leopolda**

Address:

Piazza Guerrazzi 56125 Pisa

http://www.leopolda.it/ Phone: +36 050 21531

The Leopolda Station is a cultural centre, housed in an ancient railway station that was built at the end of the 19th century. It promotes events, exhibitions, shows, conferences, workshops and leisure activities.

The structure management has been entrusted by the Municipality of Pisa to Casa della Citta Leopolda, a no-profit association of second level founded in 1999 by the associations that promoted the project of transformation of the old marketplace and worked together on the European project for its recovery works.

The cultural centre opened in 2002 and it includes: the historical hall, a conference room, a multimedia centre, a theatre and dance rehearsal room, a shop of short food supply chain products and an inner square.
