eindelijk haar vader gevonden. Het blijkt inderdaad de Nederlandse veteraan te zijn die al in 2009 is opgespoord, maar het vaderschap ontkende. De DNA-test in november 2012 heeft 99,9 % zekerheid gegeven. José heeft haar vader twee weken na de uitslag bij hem thuis kunnen bezoeken, samen met haar man. Zijn vrouw en dochter waren ook bij het gesprek. Ze hebben fotoalbums uit de Indië-tijd van haar vader bekeken, waar José haar moeder op herkende. José: 'Ik ben zo opgelucht! Mijn moeder heeft de waarheid gesproken. Dat is voor mij heel belangrijk. Misschien blijft het bij deze ene keer. Het is nu aan hen om een keer met mij contact op te nemen. Maar mijn zoektocht is afgerond. Ik heb zekerheid! Dat geeft een enorme rust.'

Zie voor de voorgeschiedenis van de zoektocht de tekst op deze website: 'Eveneens ontknoping zoektocht José?

Liefde in tijden van oorlog. In de periode 1946-1949 onderhielden Nederlandse soldaten veelvuldig contacten met Indonesische meisjes. Vaak werden uit deze oorlogsliefdes kinderen geboren: oorlogsliefdekinderen. Velen kennen hun vaders niet en zijn op zoek. Is er nog familie in Nederland? Ook

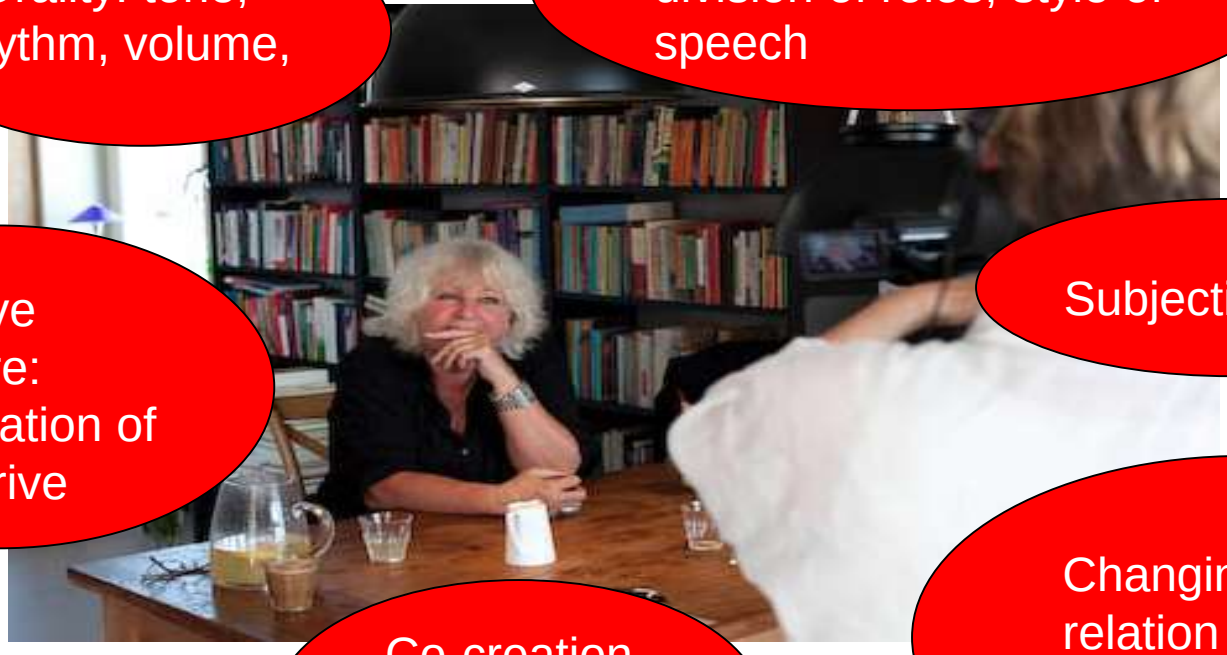
Characteristics of the oral history narrative



Orality: tone, rythm, volume,

Performance; setting, division of roles, style of speech

Narrative structure: organisation of the narrive

Subjectiveness

Co-creation, collaborative process

Changing memory: relation individual and collective memory

Uses of the oral history narrative
history
journalism
community building
social sciences
folklore
language studies
psychology
phonetics

Oral source is seen as complementary and equal to textual source

- Social history, give ‘voice’ to underprivileged groups in society
- Corroborate evidence, no editing, recording is preserved
- Truth? Reliability? Reconstructing facts and events?

Gen. Julian Thompson

Military oral historian and commander of a brigade in the Falklands war

Oral source is considered as a different genre

- Under the influence of *The Cultural Turn* oral history interviews are more and more seen as an interactive process of attributing meaning to events

  – Inclusion of rithm, tone, volume, prosody
  – 'What is factually wrong can be psychologically true'
  – Subjectivity is the most valuable information
  – Truth and reliability become irrelevant?
