Objectives:

- Promote activities to achieve the official **participation of Spain** in CLARIN and DARIAH.
- Connect the groups that are interested in these European research infrastructures
- Digital transformation of the the humanities and social sciences with the help of language technologies
- Make a **catalogue of tools and use cases** of investigations that have used these infrastructures for Spanish and co-official languages (Basque, Catalan, Galician)
- **Report on infrastructures** for research in eHumanities

Language technology: development

Different situations in 2012 >>> **developed** >>> research infrastructures

- Excellent situation: -
- God situation: English
- Middle development: German, **Spanish**, French, Dutch...
- Underdeveloped: **Basque, Catalan, Galician**, Slovenian, Swedish, Danish .
- Modest: gaelic, Icelandic, Romanian ...
