Working Groups

1. Interoperability: Practices and tools for corpus studies
2. Multimodality and new forms of communication
3. Multilingual and Plurilingual corpora
4. Legal issues, Ethics and Data protection
5. Best practices for corpus annotation
6. Corpus assessment

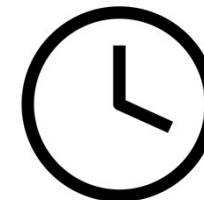

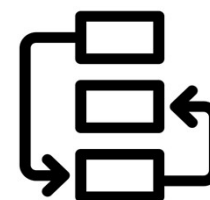

<https://corli.huma-num.fr/en/contact>

(cf. *Parisse et al.* 2018)

Knowledge-sharing with

- Sequencing of research process
- Recommendations for data collection
- Flow diagrams
- Checklists
- Guidelines for research design
- Examples of rationale
- Ethical Approval procedures
- Technical manuals
- Proper citation of datasets
- Methodological recommendations
- Training sessions, FAQ
- Data repositories
- Annotation principles and tools
- Best practice recommendation for : TEI Metadata, Conversions, Anonymization
- Templates

Conceptual

Knowledge-sharing with

Linked information-sharing : proactive and reactive

for linguists, engineers, data scientists, educators... to:

1. stay abreast of new developments
2. minimise duplication of effort
3. increase innovation
4. support synergistic activities
5. promote reproducibility
6. support high quality research
7. build collective knowledge
