

VLO development plans

Dieter Van Uytvanck

Max Planck Institute for Psycholinguistics

Dieter.VanUytvanck@mpi.nl

CMDI future workshop, Utrecht

2013-10-14

Main issues

- Context
 - Actor Language vs Content Language
 - Now possible to arrange this with container data categories
- Facet mapping:
 - too intransparent
 - see VLO mapping tool Menzo
 - harvesting/ingesting proposal Oliver
 - what facets are useful?
- Displaying
 - descriptions
 - multilinguality
 - facet selection

Main issues (2)

- Granularity
 - new Header element?
 - obligatory component/datcat?
- Metadata curation
 - MD curation taskforce
 - feedback button

Development efforts

- currently: 53 open tickets: <https://trac.clarin.eu/report/10>
- 2 part-time developers
- ... more contributions are welcome!
